Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education

2 In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District officer (in a Presidency town, the Commissioner of Police) or Political officer, as the case may be

The Standard Barometer and Thermometers are read at 8 A.M., 10 A.M., 4 P.M., and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 0·64 inch, the average due for the same period being 6·60 inches.
